

## Yale *inTouch*

**NEW**

**An interactive touchscreen built on the proven Yale cylindrical lock platform brings clean, contemporary styling to areas requiring stand-alone access.**

Interactive touchscreen makes day-to-day access effortless and offers voice-guided programming for simple updates to user information in the event of staffing changes or security breaches.

Ideal for a wide variety of applications. Anywhere that requires simple controlled access.

inTouch is engineered for quick & easy installation and fits into the standard ANSI/BHMA A156.115 cylindrical locks with lever door prep with only one additional 3/4" hole and 7 screws including latchbolt and strike.

### Electronic Elements

- Stand-alone touchscreen access locking device
- Two operational modes – Easy mode (9 users) or Advanced mode (1000 users)
- Menu access to voice guided programming available through touchscreen
- Pre-programmed voice options: English (default), Spanish or French
- 4 AA alkaline batteries
- Visual and tone playback confirmation provides positive reassurance while operating
- Silent mode – available to disable tone playback for use in quiet areas
- Passage mode – allows continuous entry for nonrestricted traffic
- Lockout mode – restricts user PIN code access
- Auto re-lock – default of 5 seconds. Adjustable in Advanced operating mode
- 9 Volt battery connections for emergency access
- Optional hardwire input for 9VDC external power
- Remote unlock available for allowing access through switch

### Mechanical Components

- Certified ANSI/BHMA A156.2, Grade 2
