HIGH SECURITY

MUL-T-LOCK®

Mul-T-Lock Overview

MUL-T-LOCK's unique patented Interactive Key Control System gives the user the confidence they need to know that they are the only ones who can obtain additional keys. Protected by MUL-T-LOCK's "Key Order Card", which is signed by the user to prevent unauthorized key duplication. Authorized MUL-T-LOCK Dealers must verify the signature on the "Key Order Card" with the signature on a photo identification of the user. *Only Authorized MUL-T-LOCK Dealers can service MUL-T-LOCK Interactive Key Control Systems.*

Tamper Resistant Products

MUL-T-LOCK Products exceed many United States and international qualifications against physical attack. All MUL-T-LOCK products are designed for pick and tamper resistance. Hardened steel inserts are strategically placed in sensitive areas to resist against drilling attempts.

Master Key System

MUL-T-LOCK incorporates the most Locksmith-friendly pinning and Master Keying technology available today. The MUL-T-LOCK family of locks has the unique ability to combine every type of lock on a single key combination and keyway. Truly one key, endless possibilities. Although unique in design, MUL-T-LOCK products may be master keyed using all known methods, e.g. - hierarchical (Flow Chart), Matrix (key user chart).

Become an Authorized MUL-T-LOCK Dealer

Ask your sales rep for more information!

- **Customer Convenience.** Customers who rely on your integrity will prefer to deposit their Card with you, rather than looking after it themselves.
- **Customer Loyalty to Dealer.** Customers will demonstrate their loyalty to you by depositing the Card with you and subsequently ordering their new MUL-T-LOCK keys from you.
- **Hassle Free.** Instances of customers coming all the way to your store only to discover they have left their Card at home will become a thing of the past.

Dealer Key Cutting Control System

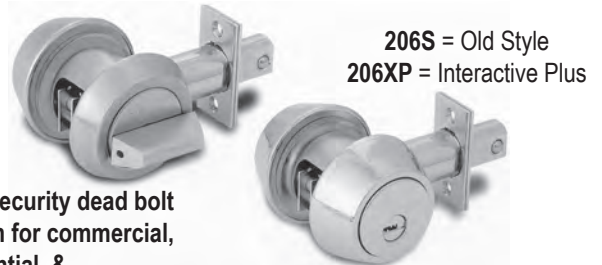

Patent Protection. *The Interactive™ key blank and cylinder are protected by a newly registered MUL-T-LOCK patent in the U.S. and dozens of other countries, due to remain in force well into the 21st century.*

Supply of Interactive™ Key Blanks. *Supplied to you only after you have signed the new MUL-T-LOCK Locksmith Agreement ("MLA")*

Key-Order Card. *Each product with keys marked "Do Not Duplicate" is sold with a key order card which you must demand to see when customers order additional "Do Not Duplicate" keys.*

601-XXXX 206S: PREFIXES DESIGNATE LOCKSMITH PROGRAM

Ask your sales rep for details on becoming a MUL-T-LOCK Dealer!

High Security dead bolt system for commercial, residential, & institutional doors.

S=Service Keyed (Sub Assembled)
KD=Keyed Different

Hercular Deadbolt

HIGH SECURITY: MUL-T-LOCK
Section C - 29

MUL-T-LOCK®

Medium Duty Padlocks

Designed for harsh environments, and offers a good level of security. Steel Plated Brass Body has a high resistance to corrosion, and manufactured with drainage holes to resist freezing. Hardened Boron Alloy Shackle with withstand various attempts at forced entry.

Each padlock is protected by the unique, Patented Interactive key Control System, designed to virtually eliminate unauthorized key duplication. All G-Series padlocks are supplied as key retaining only.

G47: 5/16" Shackle (1.043" clearance), 1.85" wide body.

G55: 3/8" Shackle (1.062" clearance), 2.165" wide body.
