Everest Primus

Ideal for New Key Systems

Heightened security awareness is driving a strong demand for patented key systems backed with professional security support. Schlage is pairing their highest security key system, Everest Primus, with select security dealers to provide the ultimate security solution.

FEATURES

- Keys into Everest Open or Everest Restricted key systems
- Thick Nickel Silver Keys
- Large Key Bows
- Standard Pins
- Everest Keyway Designs

BENEFITS

- Controlled key issuance and duplication
- Provides economical security solutions and upgrades
- Strong, durable keys
- More space for stamping
- Pinning is simple
- Keys can be bitted quickly using existing key cutting equipment

Keep your customers coming back to you with dealer exclusive side bittings.

Level 7 - Wholesaler/Locksmith

- Wholesaler sells our exclusive side bittings to select locksmiths
- Keys bear locksmith specific ID numbers
- Locksmiths prohibited by contract from copying each others keys
- Available to qualifying locksmiths at a minimal buy-in.
- Key control similar to Classic Primus Level 1+

Large Format IC Core Everest Primus, 0-Bitted.

HIGH SECURITY: SCHLAGE PRIMUS

ALLEGION

The Schlage Primus System Offers a New Dimension in Security Cylinders and Key Control

Featuring a "Patent Protected" Key

LEVEL 1 Primus cylinders and keys have a standard side milling allocated to this particular level and are available on a local "stock" basis. Level 1 also provides the flexibility of local keying into most existing Schlage key sections and utilizes a Primus key to operate both key systems. "Key Control" is in the hands of the owner who holds an I.D. card for the purpose of acquiring additional keys. Level One is serviced through qualified locksmiths, fully trained at a Schlage "Primus 1 Center".

SCHLAGE PRIMUS PROGRAMS

LEVEL 1

- * No contract needed
- * No minimum
- * No key machine needed

LEVEL 1+

- * Contract needed
- * No key machine needed
- * Initial minimum purchase required. (Approx. \$1250.00)
